NOTES:

nd=no known plasticizer detected

Dibenzoate esters, DOTP (dioctyl terephthalate) and alkyl sulfonic esters are non-phthalate alternative plasticizers.

If blank, the product was not tested by GC/MS.

Products were tested by Fourier Transform Infrared (FTIR) spectroscopy in the Ecology Center's Healthy Stuff Lab in Ann Arbor, MI and by gas chromatography/mass spectrometry (GC/MS) at TUV Rheinland.

\* GC/MS target analytes were as follows. Limit of quantification for each= .005 wt%

DEP = diethyl phthalate

DEHP = di(ethylhexyl) phthalate

DIBP = diisobutyl phthalate

DCHP = dicyclohexyl phthalate

DNPP = di(n-propyl) phthalate

DNOP = di(n-octyl) phthalate

DNHP = di(n-hexyl) phthalate

DINP = diisononyl phthalate

BBP = benzyl butyl phthalate

DIDP = diisodecyl phthalate
